DETAILED ACTION

1. Claim 16 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Regarding Claim 16, there is a conflict with the language "...not connected together" (i.e., the condition of the surfaces when collapsed) and that recited in Claim 1, particularly line 11, in the recitation, "adapted to be in contact". Here the surfaces are definitely recited as being in contact when the enhancer is collapsed. Applicant must clarify the condition of these surfaces when collapsed because of this indefinite recitation and arrangement by pointing out in the specification and drawing, where there is support and illustration of the condition when the surfaces are in contact but not connected together. If applicant means something else rather than this interpretation then the claims must be amended to reflect that condition, and it must be pointed out in the specification where there is support. If such a condition cannot obtain, then Claim 16 as recited, should be cancelled.

Allowable Subject Matter

2. Claims 1-15 and 17-39 are allowed.

Response to Arguments

3. Applicant's arguments with respect to claims of record have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

4. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
